Bring Your Own Device (BYOD) Information

At Timbarra P9 College, it is a requirement for all students in Year 7-9 to have access to a laptop. Students will use laptops for online practice tasks, to present and submit learning tasks and to access a vast range of information and other educational resources. Parents/carers are encouraged to purchase a device to participate in the College's Bring Your Own Device (BYOD) Program. At this time, the College will only accept Windows devices for the BYOD Program - Macbooks, Chromebooks, iPads and Android tablets will not be supported and will not be able to connect to the school network.

The College encourages parents to purchase a device from our partnered vendor Learning with Technologies (LWT). The devices offered on the LWT Order Portal comply with the specifications required by the College for effective and efficient use and will receive ongoing hardware and software support from LWT and the College's IT Technicians.

Orders placed with LWT between Wednesday 9th September and Friday 27th of November 2026 will have the delivery fee waived and guarantee delivery to the College over Christmas holidays. Orders placed after Friday 27th of November will incur a delivery fee and delivery is likely to take place in Term 1.

Please visit the school website for more information or click HERE to go directly to the LWT ordering Portal
