LEARNING TO LEARN

THE FIRST FEW DAYS OF YEAR 7

Learning to Learn

To support the transition into the secondary school system, we run a Learning to Learn program across the first month of Year 7.

This program will support students to learn key aspects of high school life, get to know their teachers and peers and build a sense of confidence and belonging at their new school.

The sessions in this program focus on:

- A school tour
- How to read a timetable
- How to open a combination lock
- Organising and labelling books and resources
- How to use Compass
- Classroom expectations
- College House System
- Who is who at Timbarra
- Developing student profiles
